RANDOM REFERENCES

Bramwell carries everything in Books, Stationery and Office Supplies.

Fruit by Mail—The Ogden Fruit Growers' association has received an order from Wells, Nev., asking for two boxes of peaches shipped by parcel post. The boxes weigh 20 pounds making the postage 24 cents. Express charges would be 30 cents.

G. W. Tripp, the Photographer in your town, 320 1/2 25th St.

Boys Injured—Victor Thomas and Richard Pierce, both aged 14 years, were slightly injured yesterday afternoon at Grant avenue and Twenty-fourth street when the bicycle upon which they were riding crashed into a farmer's wagon. Both were able to continue on their way after a brief respite.

Advertisers must have their copy ready for the Evening Standard the evening before the day on which the advertisement is to appear in order to insure publication.

Book of Mormon—Ephraim Jensen will deliver an address on "The Book of Mormon" at the Fifth ward tomorrow night. There will be solos by Lillian Scott, Heber Hancock and Mrs. D. W. McDonald and a reading by Moroni Olsen.

Mormon and all other church publications at Bramwell's.

Going to Encampment—At the meeting of the city commission, Col. John B. Nelson, custodian of the City Hall, asked for and secured a leave of absence to attend the 47th national encampment of the Grand Army of the Republic, which will leave September 11 and will visit relative before returning.

Old papers for sale at the Standard Office, 25c per hundred.

Appendix—Mrs. D. A. Murray of 2721 Grant avenue is suffering of an attack of appendix.

Call 421 for the news, editorial and society departments of the Standard. The first 100 children calling at 2335 Wash. Ave. between 3 and 6 Monday will receive a story book.

Ball Game Tomorrow—The Bear Makers and Owls will oppose one another in a ball game to be staged at Glenwood park tomorrow afternoon at 3 o'clock. There has been much dispute regarding the championship possibilities of each team.

and the game was arranged to settle the differences.

First-Class Auto Service—Call up Elite Cafe, Phone 72.

First M. E. Church—Sunday school 10 a. m. Preaching service 11 a. m. and 8 p. m. Epworth league, 7 p. m. subject, "The Value of Books and What the College Gives." Miss Vera Frey, leader, Professor Underwood will speak. Miss Nellie Ramey will sing.

You can always be sure that B & G Butter is pure.

Miss Lillian Wright resumes piano instruction. Interviews Saturday and Monday. Studio 614 23rd St. Phone 282-W.

WOODS—Helen Woods, fourteen-months-old daughter of Jasper J. and Stella Purdy Woods died this morning at 11 o'clock at the home, 520 Twelfth street. The child has been ill only a short time. Funeral arrangements will be made later.

Mrs. Marie Gerrans, vocal teacher of Salt Lake opens her class here September 11. Studio, 574 24th St.

Peaches—Thirty-five cars are being loaded with peaches in the vicinity of Ogden today, according to the records in the Pacific Fruit Express company office.

Grapes—The first shipments of grapes from California are passing through Ogden.

Typoid Fever—Several cases of typhoid fever have been reported to the sanitary inspector during the week. There are six cases at the Dee hospital.

Depart for Chicago—Mrs. Charles E. Smith will leave for Chicago tomorrow on the Overland Limited.

Architect—O. T. Shipley, the architect who supervised the construction of the Federal building in Ogden is a visitor in the city today.

Four Cars of Peaches—Yesterday afternoon the Utah Fruit exchange shipped four cars of peaches from Brigham City. Manager White states that the market is a little slow.

Default—In the case of Herman Van Brack against W. O. White et al., the default of the defendants have been entered in the district court.

From Evanston—Clerk Harvey of Uinta county, Wyoming, spent a short time in Ogden this morning with County Clerk Samuel G. Dye. The people of Uinta county, he said, are enthusiastic over the making of good roads and they are encouraged since it has been learned that the Overland route has been made the official highway.

In the Canyon—At the Hermitage hotel are Dr. and Mrs. Stauffer, Dr. L. W. Snow and wife, Mrs. L. B. Hill, Mr. and Mrs. W. E. Rydahl and Mrs. Nora Gleason of Salt Lake, and Dr. and Mrs. Ezra Rich of Ogden.

Resurfacing Viaduct—The resurfacing of the Twenty-fourth street vi-

duct will be completed Monday. The entire distance has been covered with three-inch plank. Traffic has not been much interfered with as the men have reconstructed only short spaces at a time, permitting constant travel.

Meeting of Seventies—City Recorder George Seaman will be the speaker at a combined meeting of Seventies quorums at the Fourth ward meeting house tomorrow morning at 9 o'clock.

Mrs. Roscoe Glasemann entertained Wednesday at a China shower for Mrs. Mrs. Mary Hinley, soon to be married.

Miss Katie Culver leaves next week for Lindenwood college, St. Charles, Missouri.

A Boulevard—The construction of a boulevard for the use of automobiles and motorcycles and motorcycles along the Ogden river, from the Washington avenue bridge to the mouth of Ogden canyon is a proposition advocated by Berend Van der Schuit, superintendent of public parks and playgrounds as a result of ideas secured while in Denver attending the convention of American association of Park Superintendents. Mr. Van der Schuit and J. W. Volker, president of the city park commission, were present during the three days of the convention.

Grand Larceny—District attorney John Davis today filed two informations against Ralph Leathery, Ralph Racker, George Black and Frank Powell, charging them with grand larceny and alleging that on August 27, 1913, they intimidated Loy Shin Bond and stole from him \$3.95 and that on the same day they took from Cina Tom the sum of \$6. The men are in the county jail.

Transfers—The following real estate transfers have been placed on record in the county recorder's office: Lyman Barker and wife to Fred Wilson, a part of the northeast quarter of section 25, township 7 north, range 1, west of the Salt Lake meridian. Consideration \$1. Ethel Blackenderfer Smith and husband to George Browning and wife, a part of lot 10, block 4, plat A, Ogden survey. Consideration \$3,650.

At Her Desk Again—Miss Annis Brown, deputy county recorder, has returned to her official duties after a vacation of a few weeks.

Caught—Yesterday afternoon Harold Forscutt an inmate of the State Industrial school, 12 years old, undertook to escape. He was captured at Harrisville.

New Home—Erna H. G. Williams is building a residence on Hudson avenue, between Twenty-second and Twenty-third streets, that will cost upwards of \$1,400.

Marriage License—A marriage license has been issued to James V. Clapp of Philadelphia and Bertha M. Duman of North Ogden.

Case Dismissed—The case of Mary E. Painter against Thomas J. Painter has been dismissed by the attorney for the plaintiff and a new action is to be commenced.

County Schools—Reports that work is well advanced on the new schools for Warren and Harrisville were made at the meeting of the Weber county board of education today.

Week's Visit—After a week's visit with her grand children, Mrs. S. J. Spencer has returned to her home in Provo.

Gas Pump—The new self-measuring gas pump purchased by the city has been installed by the firemen of station No. 1 and is being used for the motor fire apparatus and the automobile police patrol. The pump is on the inside of the station in a convenient location for filling the gas

tanks but the tank itself is under the lawn on the north side of the building. Although the installation of the pump required care and expert mechanical knowledge, the boys of the department did the work.

From the Chief—Chief A. B. Canfield of the fire department, who is attending the international fire chiefs' convention in New York, has written to the members of the department stating that he is finding the discussions and exhibits of great interest.

Macadamizing—The city rock crusher is again operating. The road leading to the city from Ogden canyon has been macadamized for a distance of nearly a mile from the ruins of the Ogden Canyon sanitarium building.

Recovering—Robert C. Hillan is recovering from a severe attack of pneumonia.

Picking Fruit—Nearly a carload of girls go to the orchards on the Sand Ridge each day to aid in gathering the peach crop.

WATCHING FOR THE FOREST FIRES

Q. R. Craft, who is district fiscal agent of the forest service, with headquarters at Ogden, reports from the Challis national forest, where he is on an inspection trip, that the fire lookout stations established on the forest are proving very effective in insuring the prompt discovery of all fires originating anywhere in a vast scope of mountain country.

Mr. Craft states that the first fire of the season on the Challis was sighted from one of these lookouts last week and was promptly extinguished by two rangers who were rushed to the scene of danger immediately after the smoke was discovered.

Lost Packer, Lucky Boy, Parker Mountain, Loon Creek, Sunbeam, Ramshorn, Bayhorse, Custer and Clayton are familiar names of mines and mining camps of the Salmon river country in central Idaho, and persons interested in these, and others who have lived in or journeyed through the upper Salmon river valley, have observed the slightly Twin peaks, which form a part of the divide between the Salmon river basin and the Middle Fork of the Salmon. The higher one of these peaks has recently been made a lookout station by Supervisor Laine of the Challis forest, and has been connected by telephone with forest headquarters at Challis, twenty miles distant. A forest guard is stationed at this lookout during the fire season, and a small cabin is being built for his use.

From this point, vision is unobstructed to the Continental divide, on the north, seventy-five miles distant. To the west sight is cut off by the Salmon river mountains, but to the south there is again no hindrance to the view to the Sawtooth range, which marks the southern boundary of the Challis. In all, three-fourths of the Challis forest of over a million acres can be overlooked from this point, besides a larger portion of the Lemhi forest on the southeast and of the Salmon on the north.

For lack of water and building material, the cabin was necessarily constructed at 2000 feet less altitude than the lookout. This distance the guard climbs daily, but not in the cool of the morning, unless it is an exceptionally dry or windy time and he expects to remain all day, or he has previously sighted a fire and wishes to make a progressive report. Instead, he waits until noon, since the most profitable period at the lookout is from 3 o'clock until sundown. A fire which smolders down during the night may fill the air with a haze and the creek bottoms with smoke, but not until noon does the smoke arise from a small fire so as to indicate its location.

NEW COURSES IN OGDEN HIGH SCHOOL

Superintendent J. M. Mills and Principal Henry Peterson of the Ogden High school have decided upon another course to be added to the curriculum. Business English will be given by a competent instructor of the commercial department. The course is open to all people, irrespective of age. Other courses offered are economics, commercial geography and commercial law. Two additional courses, salesmanship and advertising, are also new and are offered to all.

MUNICIPAL OWNERSHIP

In Glasgow, Scotland, municipal ownership of street railways: The men employed only work eight and a half hours per day for six days in the week. This eight and a half hours must come within a 12-hour limit. When the car is full no more passengers are taken on—your fare pays for a seat and not a strap only. They have the one system in fares and the average fare amounts to a fraction above a cent. For the year ending May 31, 1912, there was a surplus after all of the expenses of the tramway had been paid, of over \$250,000 to turn over to the "common good."

Of course street railways owned by the city is Socialistic and therefore tends to destroy society and break up the home—by giving the conductors and motormen decent working hours; it will destroy incentive and encourage laziness—by giving the passengers on street cars a seat, and would bankrupt the municipal treasury—by turning over a considerable sum of net profits to it every year.

Of course municipal ownership may be all right for the Scotch who are too stingy to pay profits to a traction trust and too lazy to work 15 hours a day or stand up for a mile or two in a street car, but we do not need it in our beautiful city.

(Signed) Jos. MacLACHLAN, Ogden, Sept. 6.

Shortly after marriage, the paycho knot on the back of a bride's head may develop into a thing resembling a doorknob.

BOUNDARIES OF OGDEN CITY SCHOOLS

J. M. Mills, superintendent of schools, announces the boundary lines for the various school districts. He says that each year it is necessary for various reasons to change some of the boundary lines, some districts having grown and others having additions built on the school buildings. This makes it necessary to adjust the districts to the building facilities within the districts. This gives rise to some complaints on part of individuals who do not understand the reasons for compelling their children to change from one district to another. For instance, the Grant school, this year has been remodeled, making ten additional rooms. This makes room for more children in that district. A tier of blocks has been taken from the Madison district to provide these students for the Grant and also to relieve the Madison school. Mr. Mills says he will be disappointed if all the people in that tier of blocks do not complain at having to make the change, but since this change is necessary, none of the protesting people can possibly be favored. The boundary lines of the various districts follow:

Dee Junior High school: All seventh and eighth grade students north of the center of Twenty-second street.

Central Junior High school: All seventh and eighth grade students between the center of Twenty-second street and the center of Twenty-sixth street.

Lewis Junior High school: All seventh and eighth grade students south of the center of Twenty-sixth street.

It is possible that the boundary line between the Lewis Junior high school and the Central Junior high school may be moved southward to Twenty-seventh street or near that point, but the students between Twenty-sixth and Twenty-seventh streets will meet at the Lewis Junior high school Monday morning and their cases will be settled there.

Five Points School District: All territory north of the center of Seventh street.

Mound Port School District: All in that territory embraced between the center of Seventh street and the river.

Grant School District: All in that territory between the river on the north, and a line beginning at the river and running south to Twenty-second street, thence west to Adams avenue, thence south to Twenty-fifth street, thence west to Washington avenue, thence south to Twenty-sixth street, thence west to Weber river.

Lorin Farr School District: All in that territory between the Ogden river on the north and a line running south from the river on Madison avenue to Twenty-second street, thence east to Quincy avenue, thence south to Twenty-fifth street, thence east to Harrison, thence south to Thirtieth street, thence east to the mountains.

Madison School District: All in that territory embraced with the following boundaries: Beginning at Twenty-second street and Adams avenue running thence south on Adams avenue to Twenty-fifth street, thence west to Washington avenue, thence south to Twenty-seventh street, thence east to Adams avenue, thence diagonally through the block to Twenty-eighth street and Jefferson avenue, thence east on Twenty-eighth street to Madison avenue, thence north to Twenty-sixth street, thence north east diagonally through the block to Monroe avenue, and Twenty-fifth street, thence east to Quincy avenue, thence north to Twenty-second street, thence west to Adams avenue, the place of beginning.

Pingree School District: Beginning at the Weber river and running east on Twenty-sixth street to Washington avenue, thence south to Twenty-seventh street, thence east to Adams avenue, thence southeast diagonally through the block to Twenty-eighth street and Jefferson avenue, thence south to Thirtieth street, thence west to Grant avenue, thence south to Thirtieth street, thence west to Lincoln avenue, thence southwest along Bamberger lines to river.

Quincy School District: Beginning at Harrison avenue and Twenty-fifth street, and running thence west to Monroe avenue, thence southeast diagonally through the block to Madison and Twenty-sixth street, thence south to Twenty-eighth street, thence west to Jefferson avenue, thence south to Twenty-eighth street, thence west to Jefferson avenue, thence south to Thirtieth street, thence east to Harrison avenue, thence north to Twenty-fifth street, the place of beginning.

Washington School: That territory between the south limits of the city and a line beginning at the east limits of the city and running west on Thirtieth street to Grant avenue, thence south to Thirtieth street, thence east to Lincoln avenue, thence southwest along Bamberger lines.

FINISHING THE CONCRETE WORK

The P. J. Moran company is finishing the concrete work on the railroad tracks across Wall avenue, between Twenty-first and Twenty-third streets. This work completed, the railroad companies can operate cars over their tracks, which are spur lines from the yards to wholesale houses and to the Rio Grande freight depot.

It is expected that the asphalt plant will begin operations within the next few days and that Wall avenue, in that street, will soon be paved.

Contracting work on Jefferson or Lincoln avenue some time next week.

INSPECTION OF WATER SUPPLY

At the meeting of the city board of commissioners last evening the city recorder reported that prot had

LET US BUY YOU A SPOOL OF THREAD

We want you to make a quality test of Bowstring Six Cord Spool Cotton and compare it with the thread you are now using. We know that if you will once use Bowstring thread, you will say that no other thread equals it in strength, smoothness and freedom from defects. The Sea Island cotton used in Bowstring thread has a fibre longer and finer than any other cotton in the world. Dressmakers say that Bowstring is so free from defects, that with it they can run their machines all day long without a skip or a break. The price is as usual—5c a spool.

This Coupon is Worth 5c

This coupon will buy at our store a 5c spool of Bowstring thread. But the coupon must be presented in order to get the spool as we must send to the manufacturer a coupon for every spool put out in this way. We want you to know by actual experience the high quality of Bowstring thread. This coupon is good for one week only beginning to-day.

Sept. 8th.

WRIGHTS'

DEVELOPMENT IN BIG PINEY, WYOMING

That considerable development is under way in the Big Piney region in western Wyoming is evidenced by the present demand for timber from the Wyoming national forest. District Forester Sherman has just approved a contract for one million feet of sawtimber in Snyder Basin, the purchaser being J. W. Bollinger of Big Piney. This is the second timber sale contract which the forest service has made in this region within the past two weeks. The timber is located on Snyder Basin, and is largely lodgepole pine and Engelmann spruce. Mr. Bollinger has just removed his mill to the area and, according to forest officials, will be equipped to produce lumber within a few days. The price paid is \$2 per thousand, making a total of \$2,000.

Assistant District Forester Butler, who recently returned from the Big Piney country, reports rapid development in that region. Not only is there considerable building being done in Big Piney, but a new town called Marbleton has sprung up on the bench above the present town of Big Piney and the second grade deal building. Two mills already have been located in Snyder Basin which contribute directly to the Big Piney country.

According to Mr. Butler, the timber in Snyder Basin is of excellent quality and the stands are unusually heavy for the species found. Some of the Engelmann spruce stands run from 30 to 40 thousand feet per acre, while the average lodgepole pine stands run from 20 to 30 thousand feet per acre. Mr. Butler stated that he was much surprised to find so large an amount of timber upon LaBarge Creek, which is just south of Snyder Basin and drains into Green River above Granger. He stated that there is, in his judgment between 200 and 250 million feet of lodgepole pine and Engelmann spruce on LaBarge Creek which can be driven to market. He considers it an excellent opportunity for an operator who desires to handle railroad ties, mining props and sawtimber.

MUNICIPAL COURT

The following suits have been filed in the municipal court:

P. K. Smith vs. Cecil Reed, suit \$15.50.
C. H. Smith vs. George and Alice Freestons, suit \$43.60.
R. H. Douglas vs. F. W. Jones, suit \$9.85.

Charles F. Grout vs. Ellis H. Higley, suit \$22.83.
Dirk Raat vs. Mary A. Mattson, suit \$40.30.
Ephraim Jensen vs. Alice E. Chamberlain, suit \$109.30.

NEW COMPANY ORGANIZED IN OGDEN

The American Radium company has been organized in Ogden with J. C. Roberts, president, F. A. Clark, vice president, N. W. Isherwood, secretary and treasurer, who with A. J. Whitman and J. A. McCulloch made up the directorate.

Options have been secured on three sites for a reduction plant in this city and a 25 horse power boiler, mixers and pulverizers have been ordered shipped here.

The company will not attempt radium extraction but will ship its ores from southeastern Utah and here reduce them to a pulp to be used as an aid to plant growth and as a cure for many diseases of the human body. In its prospective, the company makes this statement:

"We contemplate the lighting of our offices with radium within six months' time, in fact, we expect many new discoveries of vast importance within the next few months. We already have some great discoveries. The president, who is an expert on radium ore deposits, experimented for months with certain specially assorted specimens of crude radium ore from our deposits for the treatment of diseases, with astounding success."

It is difficult to forget the mean things we know about ourselves.

Brussels, Sept. 6.—Edwardo Wilde, Argentine minister to Spain, died here last night.

A committee was appointed to select permanent headquarters for the organization.
